

Lab 10. Creating Dual Charts in Power BI

Ref : SalesData.xlsx

Lab 1: How to create a Dual Axis Chart to show sales and profit over time in Power BI?

- **Task:** Create a dual-axis chart that shows both total `Sales` and `Profit` over time using a `SalesData` table.
-

Lab 2: How to create a Dual Chart to compare total sales and average sales by product category in Power BI?

- **Task:** Create a dual chart that compares total sales and average sales for each product category. The `SalesData` table contains `Category`, `Sales`, and `Product Name`.
