

Lab 18. Using the Data Filter Option in Power BI

Ref: SalesData.xlsx

Lab 1: How to use the data filter to show sales data for a specific region in Power BI?

- **Task:** Apply a data filter to display sales data only for the `Region` "Southern Asia" from the `Sales` table in a report.
-

Lab 2: How to use the data filter to show sales data for products with sales above 50,000 in Power BI?

- **Task:** Apply a data filter to display only products with a `Sales` greater than 50,000 in a bar chart.
