Lab 9. Creating a Clustered Bar Chart in Power BI

Ref : SalesData.xlsx

Lab 1: How to create a Clustered Bar Chart to visualize sales by region in Power BI?

- **Task**: Create a clustered bar chart to show the total sales for each region in the `SalesData` table. The `SalesData` table contains columns like `Region` and `Sales`.

Lab 2: How to create a Clustered Bar Chart to compare sales of multiple products across different months in Power BI?

- **Task**: Create a clustered bar chart to compare sales for different products across several months. The `Sales` table contains columns like `ProductName`, `Order Date`, and `Sales`.
