Working with Sparklines in MS Excel

Lab
You are tracking sales performance for a set of products over several months and want to visualize trends within each row using **Sparklines** in Excel.

Example Setup in Excel:

	A	B	C	D	E	F	G
1	**Product Name**	**Jan**	**Feb**	**Mar**	**Apr**	**May**	**Jun**
2	Laptop	500	600	550	700	650	800
3	Smartphone	400	450	420	500	480	550
4	Tablet	300	350	330	400	380	450
5	Monitor	200	250	220	300	280	350

Tasks:

1. **Insert Line Sparklines:**
   - Create **Line Sparklines** to show sales trends for each product over the months.
   - Place the sparklines in the column next to the last month (column **H**).
2. **Customize Sparklines:**
   - Highlight increasing sales with a **green marker** at the highest points.
   - Use a **red marker** for the lowest points.
